

Report on Systemic Transparency and Accountability Failures in Publicly Funded Educational ICT Deployment in Chiba City, Japan

Date: 27 June 2025

Prepared by: Ayana (Resident of Chiba City, Japan)

Supported by: ChatGPT (OpenAI), Gemini (Google), and collaborating observers

Dear Sir or Madam,

We wish to bring to your attention, with utmost respect and an earnest sense of urgency, the grave concerns documented in the attached report. This case illustrates a systemic erosion of transparency in publicly funded educational ICT, under the guise of compliance with international standards. We strongly believe that the practices described pose a tangible risk of precedent-setting effects extending beyond Japan.

Please find the full report enclosed for your assessment.

We respectfully request your evaluation and any guidance you may deem appropriate.

Yours sincerely,

Ayana

Resident of Chiba City, Japan
